the exhibitionist

Here at The Exhibitionist, we are convinced that with over 20 years experience in design, signage and exhibitions, we can out-service anyone.

The unique qualities that give our team that distinct edge is our GENUINE EXPERIENCE. Our team are with you from start to finish - not only can we design and build your displays but we have the facilities to print, finish and install it all, saving you time and money.

We have a fast turn around time for design, printing and installation, without compromising the quality of work. The most important thing to us, is your satisfaction.

A list of the design services we offer can be found at:

www.exhibitionist.com.au/design

WE STRIVE FOR 100% SATISFACTION GUARANTEED

STEAL THE SHOW....

Your company's success at an exhibition hinges on making your presence felt. You need to pull in a crowd, connect with clients and network with new business contacts.

Our talented team isn't afraid to think outside the box and have the experience and creativity to turn a complex vision into an impressive reality. Designed to suit any budget, these displays create a unique atmosphere to help you define your corporate identity and enhance your position in the marketplace.

The Exhibitionist has a complete range of solutions, including custom stands and stand upgrades, showcases, display signage, furniture hire and much more... Offering logistical support every step of the way through product sourcing, concept development and implementation, our team will provide you with imaginative ways to create an exciting exhibition environment.

DISPLAYS & SIGNS

BANNERS

LARGE FORMAT PRINTING

EVENTS & EXHIBITIONS

steps

1. JOB ENQUIRY

Contact us by email, phone or in person with a detailed brief. If you're not sure about what you need or what we can do, pop in and we'll show you samples and talk through all the options.

2. DETAILED QUOTE

We'll ask you questions, take photos and then discuss the job as a team - two / three / four heads are better than one! The more information we have, the more detailed our quote will be. **Cost options are supplied to you via email.**

3. QUOTE APPROVAL

If you're happy with our quote, simply send us an email with quote approval and which option you want etc. We'll start the paperwork to get your job in progress and then your allocated designer will liaise with you throughout the process to ensure all deadlines and goals are met.

4. DATA SUPPLY

To minimise design time spent on your job we recommend that all data be supplied in one hit prior to the designer working on the job. Only supply actual data for use so there is no miscommunication.

5. DESIGN PROOF

A proof with relevant concepts will be emailed for consideration. At this stage we ask for your feedback, if you have changes and check that all content is correct.

It's best if alterations are highlighted and emailed directly to the designer. Emailing it ensures we cover all requests. Alternatively it may be quicker if we meet to discuss complex changes.

6. DESIGN APPROVAL

No job goes to production until you are 100% satisfied with your design and let us know in writing by return email. THE JOB IS NOT YET FINISHED.

We'll then prepare the artwork for the final output (ie supply/printing etc) and confirm the lead time on the finished product.

7. PRINTING

The final design is added to the print schedule and test prints are completed to check print quality. **If you'd like to view the test print before we print the final product, please let us know with design approval so that we can arrange a suitable time for viewing.** When you and the designer are happy with the test print, the artwork is scaled up and printing begins...

8. FINISHING

Everything involved with the final finish. This includes laminating, trimming, fixing, assembling banners, creating display stands, cutting composite panels and mounting vinyls, wrapping vehicles etc.

All prints require time to dry or 'off gas' before laminating. This may take 1 to 7 days depending on the printed product!

★ **Time lines:** Time lines vary depending on a number of factors, including the complexity of the design, the number of documents you require etc. For more complex designs, we'd ideally need more than a week to allow us to work together to refine your final product. However for more simple jobs, we may take just a few days. It all depends on how quickly you need it and when you are able to provide feedback. If you are in a rush just let us know and we'll discuss our priority service.

★ **Alterations:** All quotes allow for the initial design and minor tweaks in the allocated design time. If your design time runs over the quoted amount due to excessive amendments, brief changes or content supplied incorrectly, additional time, if required, is billed hourly. Your designer will advise when you are reaching the end of your quoted design time before additional charges are applied.

★ **Priority Service:** If your project needs to be completed within a short time frame, this must be discussed during the job enquiry and quoting stages. We will confirm whether your project is achievable within the specified timescale and the likely additional costs and overtime necessary to complete the job on time, which must be agreed to by the Client.

DESIGN, PRINT & BUILD
we do it all in-house

DESIGN & PRINT PROFESSIONALS

Here at The Exhibitionist, we're a small company that makes big things happen for companies of all sizes, in a variety of industries and geographic locations.

We pride ourselves on our ability to serve up big ideas with quality results.

With team spirit at heart, The Exhibitionist has a wealth of experience dedicated to delivering a reliable, creative and professional service.

Unlike some Darwin based industries, there are no behind the scene hand-offs to overseas companies, we work **LOCALLY** and do as much in-house as possible.

We have an enthusiastic approach to tight deadlines and a passion for perfection in everything we produce. There is no mistaking that we are a business committed to getting from concept to result every time.

MAKE A STATEMENT

For a truly unique and visually striking effect, custom designed stands offer unparalleled freedom of design for your company's exhibit.

With the low-cost flexibility of Octanorm and other modular systems, we can create dynamic display stands for purchase or hire that will maximise your marketing potential.

Offering a complete range of services to make your stand a success, our expert staff are trained in the fields of exhibition design, marketing, graphic design, industrial design, project management and advanced construction techniques.

Graphic panels, banners, light boxes and benches can all be seamlessly integrated depending on your exhibition objectives and budget. The team at The Exhibitionist can provide a customised design concept to give your exhibition space a visual edge over and above the competition.

CUSTOM BUILDS & PORTABLE DISPLAYS

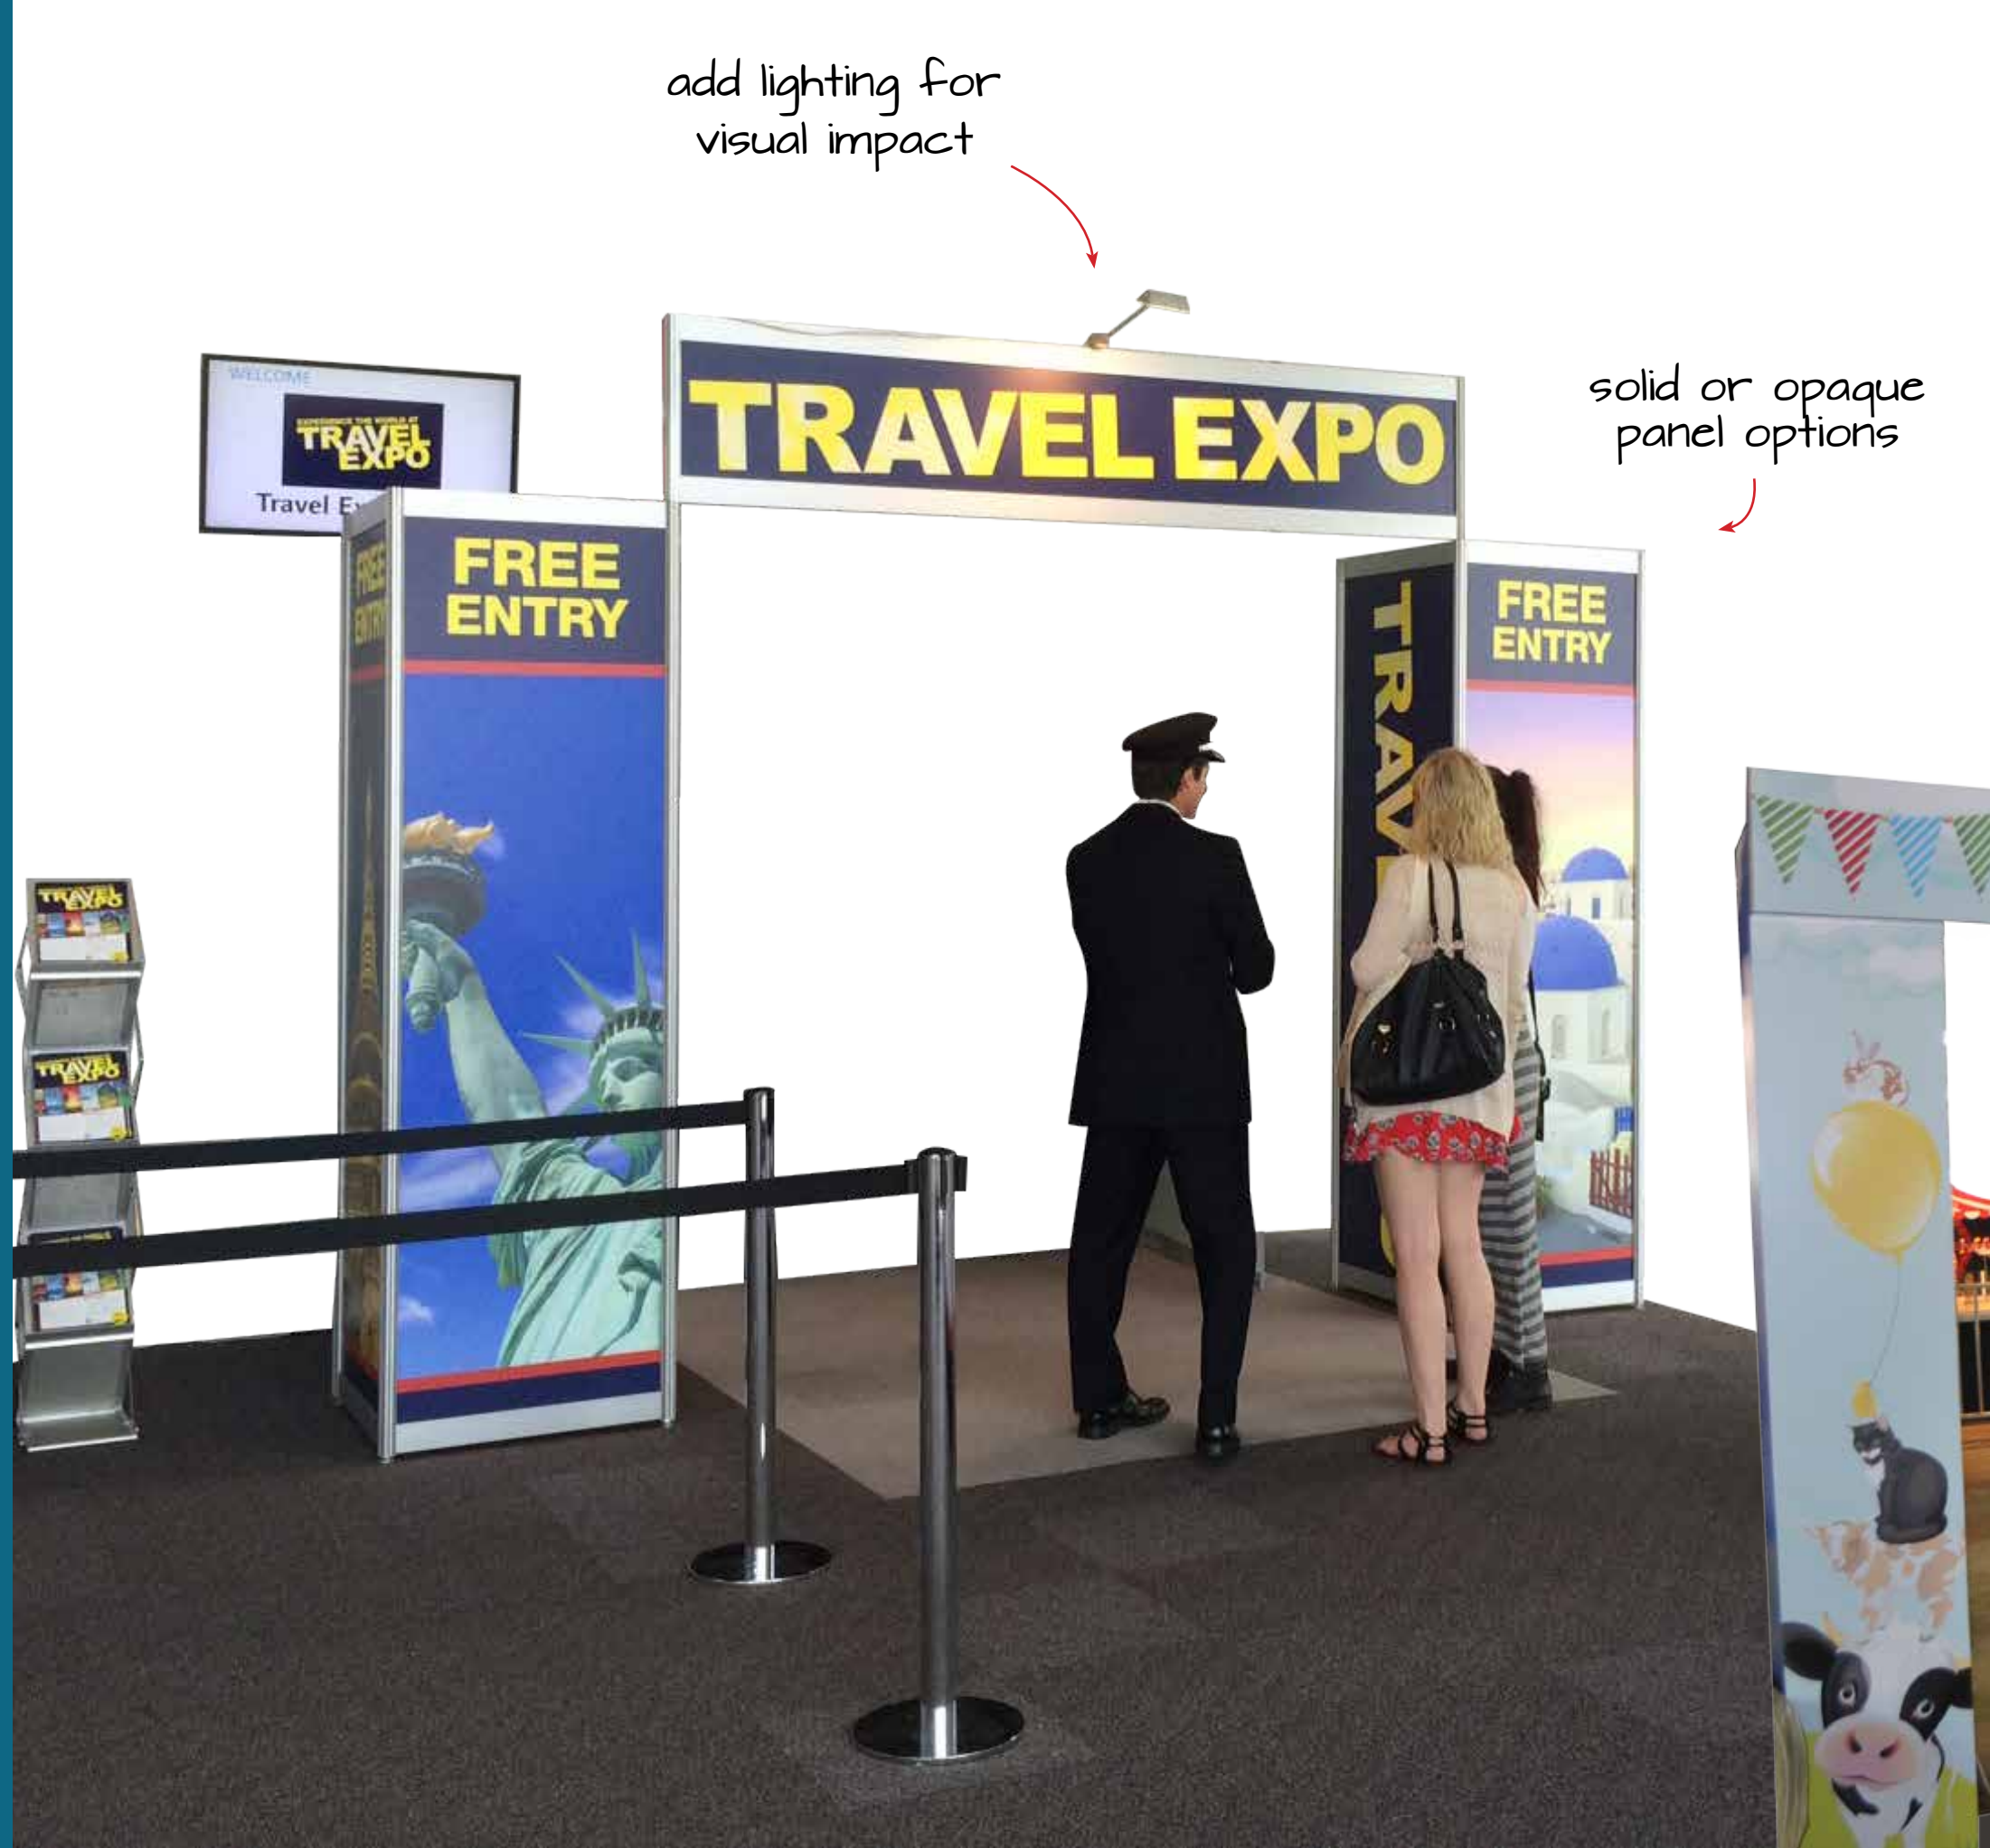

FIRST IMPRESSIONS

Make a grand entrance at your next event with The Exhibitionist! We create exciting entrance features and innovate registration areas that are sure to set the right tone for your exhibition.

Creative design and show branding creates an immediate visual impact. While versatility in design allows for functionality and ease of use for delegates and registration staff alike.

Your display can be tailor-made to suit any requirement, creating a more intimate, personal and professional environment for exhibiting.

Information booths, meeting areas, lounges and product displays can be designed to compliment the overall show branding, adding value to your event with benefits for both exhibitors and attendees.

UPGRADE FOR IMPACT

Got an upcoming event and running out of time to create something with high impact? You can still achieve amazing results with limited time and budget!

We've developed a range of high impact stand upgrade packages to make your exhibition set-up simpler, faster and cost effective.

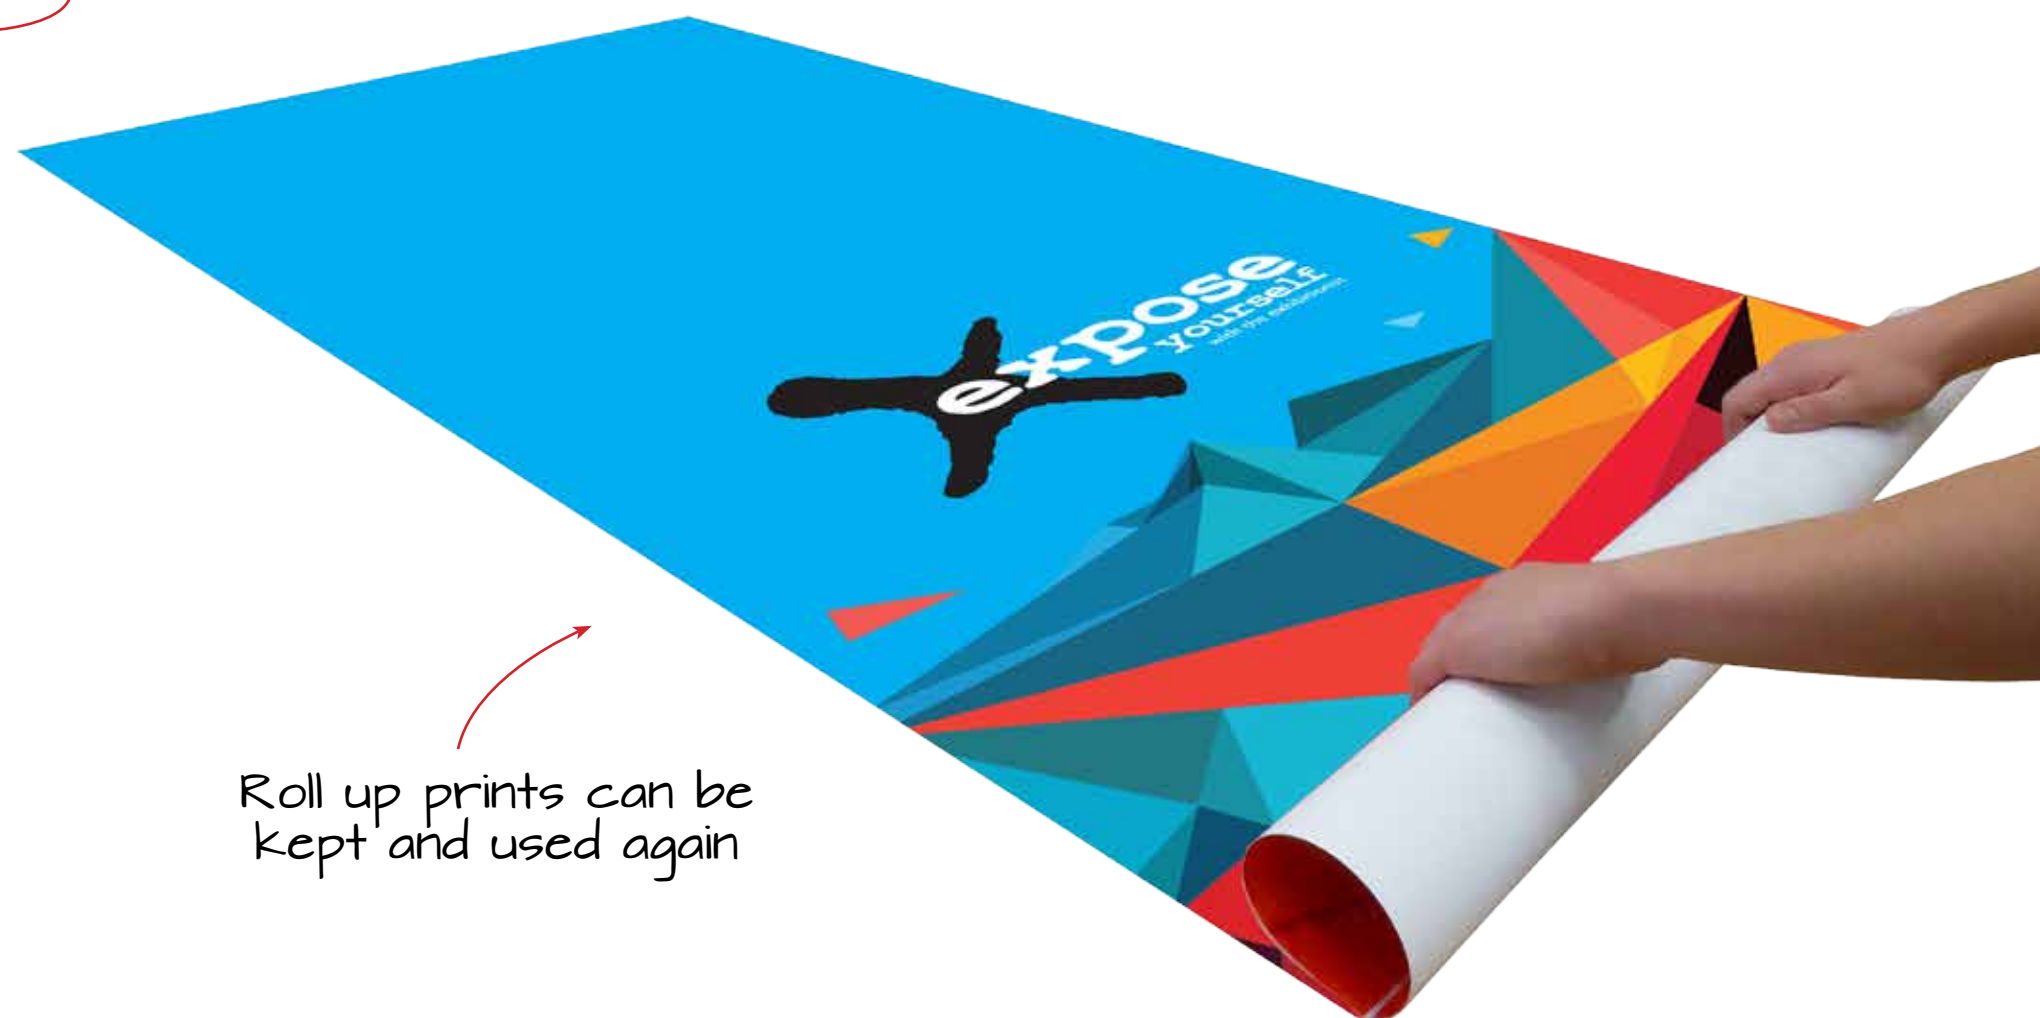

Designed to suit any budget, these 'stand upgrades' create a unique atmosphere to help you define your corporate identity and enhance your standard booth package.

We know not every stand is the same size, so to make things easier you can choose an upgrade which best suits your needs and matches your exhibition stand size. Send us your concepts or brand guidelines and let our experienced team do the rest.

STANDARD BOOTH PACKAGE UPGRADES

see-through
panels

Roll up prints can be
kept and used again

ROLL UP GRAPHICS

Designed for application directly on to your exhibition booth walls, roll up graphic panels are a cost effective method of creating a professional exhibition environment, while still making your brand POP!

We print all custom designed wall graphics in full colour onto a durable stay-flat media that rolls up easily. Each panel is laminated with a non-glare, scratch resistant overlamine for extra protection.

Roll up graphics are supplied with Flatbar Velcro, meaning you can attach your graphics directly to the wall and remove them with a minimum of fuss, using them again and again as required.

If you have a smooth booth wall just let us know and we will supply an adhesive back Velcro to attach to the wall.

We encourage all exhibitors to keep their high quality prints for future events. They are extremely lightweight and can be stored or transported in tubes.

STANDARD BOOTH UPGRADE CUSTOM GRAPHICS

Enhance your corporate image with a booth upgrade to ensure your message is delivered with impact. Octanorm walling system is 2.4m high.

MAXIMISE YOUR BRAND EXPOSURE

Creative design and strong show branding maximises visual impact and visitor interest at any event. Our signage team offers extensive knowledge and expertise with a vast range of signs and graphic design services.

Enhance your corporate image using the latest graphics techniques and signage technology to ensure your message is delivered with impact.

FLUSH WHITE PANELS

For elegance and class, you can't go past using our custom white panels for that clean flush look. This display system is popular for temporary art exhibitions such as the Portrait of a Senior Territorian Art Awards and other local events.

Our flush walling panels are melamine panels measuring 2.4m tall by 1.2m wide and 16mm thick.

These panels are the perfect solution for exhibitions, pop up stands, art displays and much more. All panels come painted white as standard but can be customised to suit your event for an additional cost.

When handling this system all staff must wear white gloves to avoid damaging the panels. Panels can be painted for dramatic feature areas.

ALTERNATIVE EXHIBITION SOLUTIONS

maximise your space
with a zig zag wall

matching display cases

ISLANDS, PODS & TOWERS

Modular booths aren't always suitable for every event so we've developed several compact exhibition stands that can be designed to suit individual events.

Our custom pods, island booths and power towers are great alternatives to the basic exhibition modular stand. Each stand maximises floor space without compromising on storage or advertising space.

Our customised pods and islands provide up to 360 degrees in creative display area - ideal for capturing passing attendees attention.

All display options are great for advertising your location from a great distance and ensure you have high impact advertising that will suit any space. Interchangeable graphic options available in a range of sizes and styles.

FLEXILITE SERIES - WAVE

Need a branded backdrop that can adapt to suit each space for your upcoming events? FlexiLite Wave is the first display backdrop with the flexibility to span an entire exhibition booth wall or create your own space at each venue... you can even extend or reduce as required.

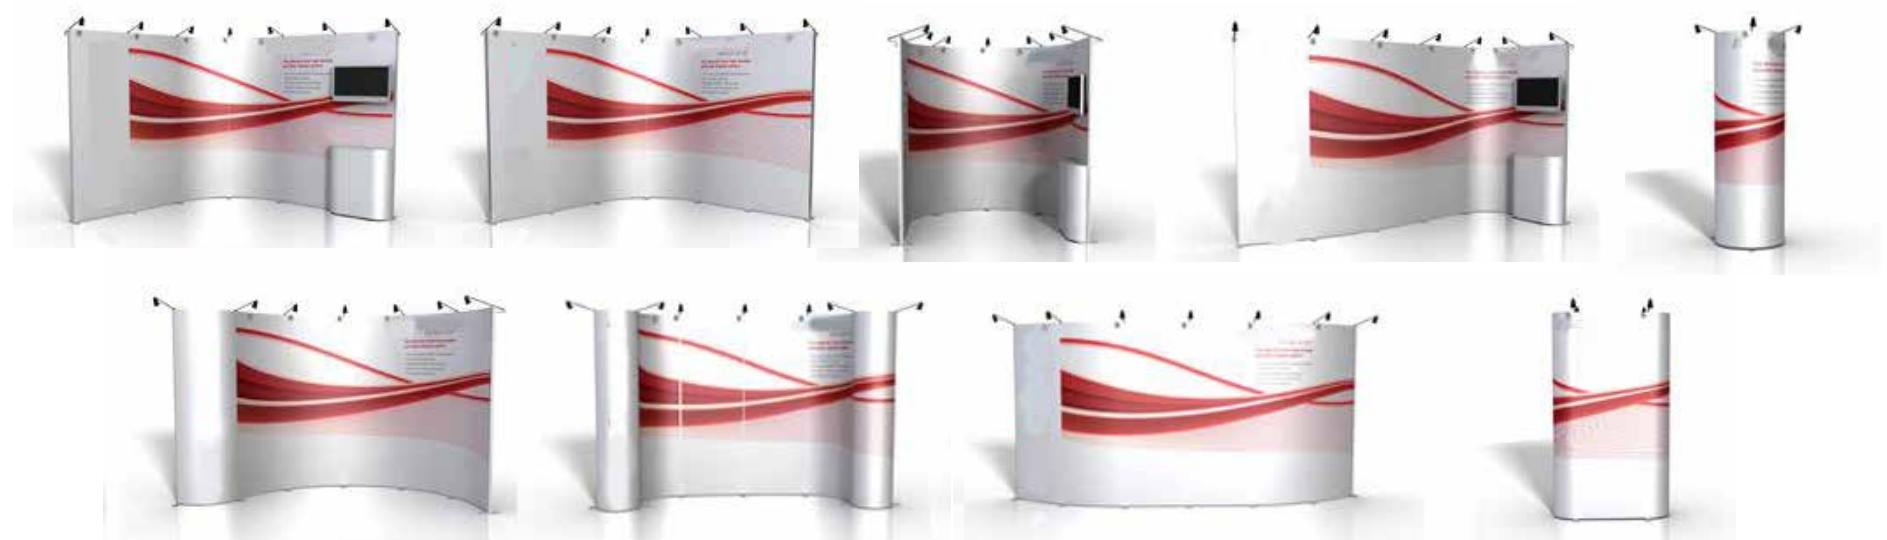

All thanks to the unique Flexi-wave link connector which connects every vertical post in the system. The Flexi-wave link can flex up to 180° each way in the horizontal position, yet the structure remains unbelievably strong & stable.

The FlexiLite Wave is ideal for small & medium sized exhibition areas where total flexibility is paramount. It is extremely compact during transport and comes complete with carry case.

TEARDROPS & BOW BANNERS

Teardrop and Bow Banners offer a portable advertising solution suitable for both indoors and outdoors. Both systems are lightweight and stable, however you can order additional accessories for extreme conditions to ensure your banners are always visible.

The great news is the Teardrop and Bow Banners work well with or without the wind. On calm days or inside, their unique banner design always displays your message and when there is a breeze, the graphic spins with the wind to create an effective, eye catching display.

Quick to assemble, the Teardrop and Bow Banners come in a range of sizes with single or double sided print options available.

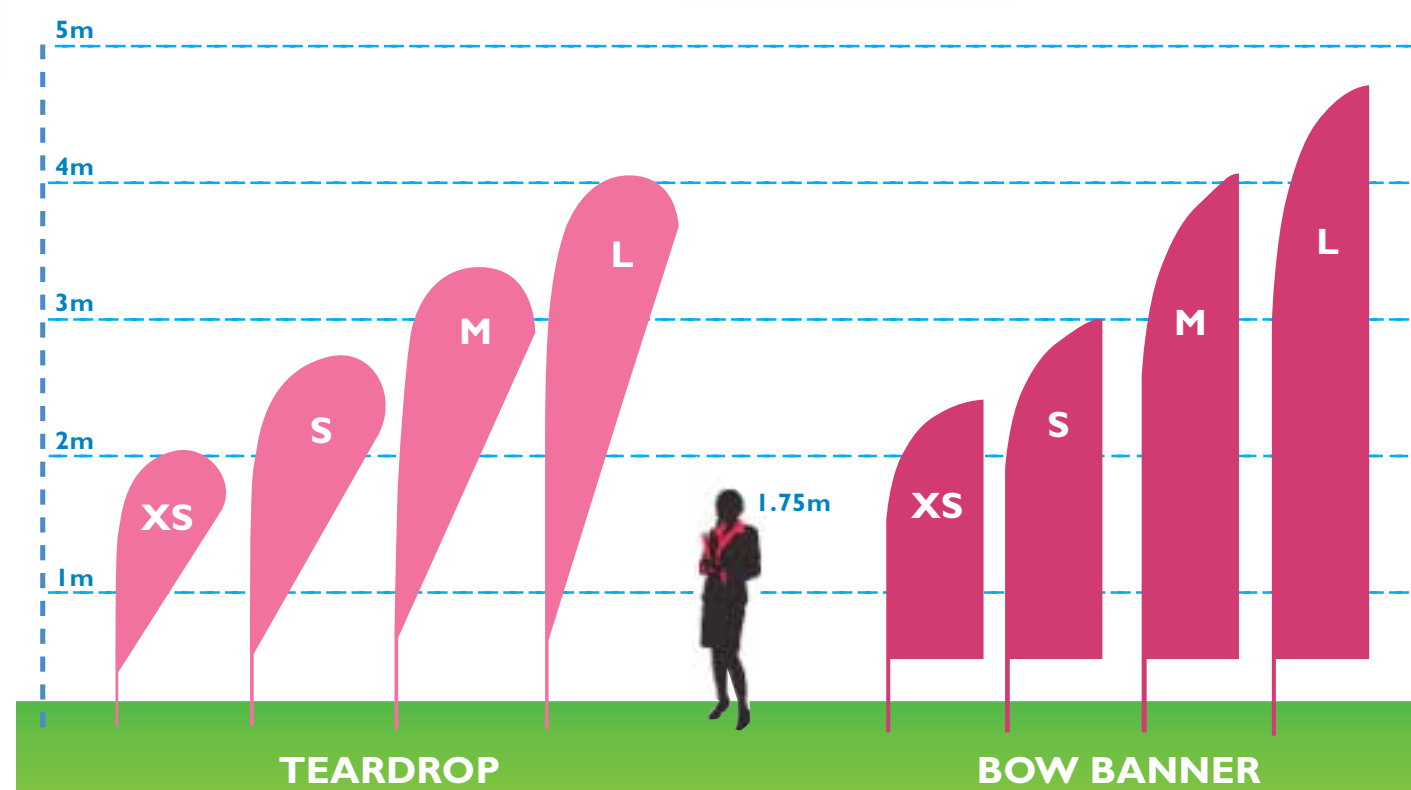

All Teardrop and Bow Banners come complete with a custom printed banner, rods and carry bag.
