# YOU'VE GOT THE POWER

Most standard booth packages include a single 4 amp powerboard with 4 outlets and 2 spotlights. You can order additional power to accommodate multiple electrical devices throughout the space.

## ELECTRICAL APPLIANCES

Due to electricity supply constraints in certain venues, it is essential that exhibitors detail all appliances to be used at their site, with order confirmation. If you are unsure of your electrical supply requirements, contact The Exhibitionist and we will be happy to assist you.

## TAGGED & TESTED

Any exhibitors bringing electrical equipment to the event must ensure that it is tagged and tested and within their expiry date. All electrical leads, tools and appliances must be in good condition and meet all safety standards and requirements.

A qualified electrician from The Exhibitionist may be on-site (if required) during installation and is available to test and tag. There is a fee for this service - payable by the exhibitor direct to The Exhibitionist.

TAGGED & TESTED

### PLEASE NOTE:

Standard power supplied is suitable for laptops, DVD players, small flat screens, media players and charging phones etc. Any other electrical equipment may require separate circuits e.g. kettles, toasters, hair dryers, printers, projectors, power tools etc. to avoid overloading venue circuits.

If in doubt call us on 08 8981 3166
